Bootstrap		jQuerry		

Other Skills

Autocad

3ds Max

Work Experience

@Tahjir - Fulltime
Jan 2020 - Present   📍 Vancouver, Canada

FRONTEND/UI/UX   🌐 tahjir.com

Tahjir is a Canada based startup that provides a search engine for Pakistan's import database. Worked with the lead developer in a startup team to take the product to market. During my time we were able to grow signed up active users by 500%.

▷ Participated in every step of the product development process from ideation through development and improvement for features.

▷ Designed and developed web application using custom sass library and Django web framework.

▷ Designed and implemented mobile experience leading to 40% growth in monthly active mobile users.

▷ Implemented Custom Design System reducing time to develop User interfaces.

▷ Created multiple POC designs on figma to help prioritize new features for product team.

@Artilytics - Freelance
Nov 2019 - Dec 2019   📍 Karachi, Pakistan

FULL-STACK

▷ Designed and developed a visually appealing and responsive website for Artilytics.

▷ Allow prospective clients to be able to subscribe to Artilytics Newsletter and request a demo.

Projects

Evently (in-progress)

React | Node | Express | MongoDB

Developed a website that allows users to sign up and post events.

Some Key Features:

- Integrated react-helmet to dynamically inject meta data to improve SEO.
- Used third party api (cloudinary) to handle images.
- Integrated Nodemailer with Mailjet to send reset password links to users through email.
